RT. 29 SOLUTIONS UTILITY IMPACTS

Lane-Corman, the Route 29 Solutions Construction Contractor regrets the incident that occurred early Monday morning (March 7th) when a communications cable belonging to CenturyLink was damaged and communication in a large part of northern Albemarle County was disrupted. Lane-Corman has identified what the reason was for the damage that occurred and has taken steps to preclude this type of error in the future.

The event that occurred was a result of miscommunication in identifying abandoned utilities. Lane-Corman has implemented a more stringent process, effective immediately, to prevent this from happening again.

It is our intention to provide a safe working environment that will minimize the disruption to the public such as what occurred on March 7th. If there are any questions, please contact Mr. Christopher Reed, Lane-Corman's communications manager, listed above.

For additional information on the Route 29 Solutions project, please visit VDOT's website at <http://www.route29solutions.org>.
